

Tailored eDiscovery. Accelerated by Design. Powered by Experience.

CODISCOVER managed review involves utilizes project managers, experienced reviewers, and defined protocols to streamline the review process, reducing time and costs while maintaining accuracy and defensibility. We leverage technologies to enhance review efficiency and quality. Our robust quality control measures are implemented throughout the review process to ensure accuracy and consistency in document coding and tagging.

WHY MANAGED REVIEW?

Cost Savings

By leveraging technology and efficient workflows, managed review can significantly reduce the cost of document review compared to traditional methods.

Increased Efficiency

Managed review streamlines the review process, allowing for faster completion and quicker access to key documents.

Enhanced Quality

Robust quality control measures ensure a higher level of accuracy and consistency in document review, improving defensibility.

Scalability and Flexibility

Managed review teams can be scaled up or down as needed, providing flexibility to adapt to changing case demands.

WHY CODISCOVER

Relativity Knowledge Base

Our members have combined decades of experience working in Relativity, the foremost eDiscovery software and we are experts in using Relativity's cutting-edge tools for data analytics and continuous active learning.

Experienced Litigators

Our attorneys have decades of experience handling attorney preferences, firm standards, and legal issues. They understand a case's nuances quicker and get better results in less time and for less money overall.

Experts in Large Reviews

Our members have extensive experience managing large reviews, running discovery on some of the most prominent litigation and investigations in American jurisprudence.

In-House Data Management

We manage data in-house, allowing attorneys and technical experts to develop strategies on the most effective way to conduct a review and streamlining the underlying business process and workflow of a project.

Customized Solutions

As opposed to a one-size-fits-all approach of vendors, we offer customized discovery and document review solutions tailored to meet your specific data and case needs.

Enhanced Risk Management

Incorrect decisions made without a discovery expert on your team can be both difficult and costly to correct. Rest assured that if you utilize our services, we will help you avoid the potential penalties that can result from discovery.
